

Hawsons Live Audio Stream

Hawsons Iron Ltd (**Hawsons** or the **Company**) advises that there will be an investor briefing session via a Live Audio Stream conducted on Tuesday 25th October 2022 at 4pm (AEST) or 5pm (AEDT). Chairman Dave Woodall and Managing Director Bryan Granzien will be available to discuss with the Top 50 Shareholders the company's recent announcements.

The top 50 shareholders who have their electronic communications preferences recorded with Link Market Services as at Friday 21st of October 2022 will receive a separate link, which will allow them to ask questions during the investor briefing.

For all other Shareholders, please use the following link to listen to the discussion;

<http://www.openbriefing.com/OB/4915.aspx>

All of our valued shareholders are welcome to send questions prior to the event to engage@hawsons.com.au. We will endeavour to answer as many of these questions as possible during the Audio Stream.

We also urge all shareholders to update their communication preferences with Link Market Services so that you are receiving communications electronically and directly from the Company. Please use the following link to access all the relevant shareholder information;

About Hawsons Iron Ltd

Hawsons Iron Ltd (ASX: HIO) is an iron ore developer and producer listed on the Australian Securities Exchange. The company is focused on developing its flagship Hawsons Iron Project near Broken Hill into a premium provider of high-quality iron ore products for the global steel industry.

The Hawsons Iron Project is situated 60km southwest of Broken Hill, New South Wales, Australia in the emerging Braemar Iron Province. Prefeasibility Study (PFS) results for the Project, which was completed in 2017, showed that it is capable of producing the world's highest-grade iron product

(70% Fe), making it among the world's leading undeveloped high-quality iron ore concentrate and pellet feed projects. Leading research firm Wood Mackenzie in Q2 FY 2019 rated the project one of the world's best high-grade iron ore development projects, excluding replacement or expansion projects owned by the established miners.
